**MINI 3 DUE Monday, December 5, 2016 BY 10:00PM to your Canvas "MINI 3 Assignment"**

Using your preferred search tool and search techniques, **which you should have already done or are doing**, list and discuss the **three (3)** most important/interesting/useful things you have learned **through your own work and on-line research** relating to C#, .NET and/or Visual Studio. These **may or may not** be related to your Final Project.

For EACH of these **three (3)** things you learned, please write up the following and have it ready to submit by the assigned deadline:

1. List the 3 **best** URIs you found that discuss and explain this topic.
2. Offer a précis of the topic. Summarize what was said in what you read.
3. Offer, in your own words, a summary explanation of what you **found to be** the one or two **most important points** were in what you read.
4. **Instead of a question**, state as clearly as you can **why someone else would find this an important/interesting/useful thing to know**. Tell us why it was worth the effort to investigate and learn about.

**JIT 3: (DUE to JEFF VIA EMAIL [jwhitmer@cs.indiana.edu] by 10pm on Monday, December 5, 2016)**

Submit your 3 **big statements of importance** (one for each of the 3 topics you discuss above) by email before 10pm on the due date (12/5/2016).

Please send your JIT **as the body of a simple email message**. Please **do not** send them as an attached file. BE SURE to put "JIT 3" and "A290" **or** "A590" in the subject line.

Remember, you need to do #1-3 above for each of the 3 things you learned and submit the electronic version for **MINI 3 to your Canvas "MINI 3" Assignment**, and also send me the 3 statements (#4 above) by email for **JIT 3**.
